

Occupational Certificate: Project Manager

Key Features:

- SAQA ID: 101869
- Credits: 240
- NQF Level: 05

EXIT LEVEL OUTCOMES

1. Initiate a project to address specific project objectives.
2. Plan and prepare the delivery of a project.
3. Execute and control the delivery of a project management plan.
4. Manage the project close out process.

This qualification equips learners to operate effectively as Project Managers. It focuses on applying project management principles to meet specific project objectives.

The qualification addresses the critical need for skilled Project Managers in various sectors, including ICT, HR, advertising, and construction. High-quality project management is essential for improving service delivery and economic growth in South Africa. This program aligns with national strategies and international best practices.

International Comparability:

The qualification is benchmarked against two global standards: the Project Management Body of Knowledge (PMBOK) and PRINCE2, both recognized for their methodologies in project management.
